What seems to be the most important to me while working on a new project is the clarity of visual thought and the outcome I intend to achieve. Hence employing adequate means every time it is needed, and not limiting to 3 good old ones – because every project requires a new approach.

I have significant experience in working with every type of animation – 2D and 3D. My taste and sensitive eye were well trained at the Secondary School of Fine Arts and the Academy of Fine Arts.

My long experience in using the graphics programs makes me reliable in operating any formats and mediums.

I use 3Dstudio Max, Adobe CS, Z-Brush, PAP and I'm ready to learn more.

I like team work a lot, and I don't mind working by myself. I personally lead a lot of projects - from consultations with clients, to comprehensive realization.

Married, 4 daughters.
